

5 Easy Steps for Claiming Work Injury Compensation

1 Report the Accident

Inform your employer of work accidents and injuries as soon as possible.

2 File a Work Injury Compensation Claim

You have up to 1 year from date of accident to file a claim with MOM.

3 Go for Medical Assessment

You must undergo a medical assessment to determine the extent of injury and amount of compensation. The clinic or hospital will then send the medical report to MOM.

4 Receive Assessment of Compensation Payable

MOM will assess the compensation payable from the medical report and issue a Notice of Assessment to you, your employer and the insurer, indicating the amount of compensation awarded, if any.

5 Settle Work Injury Compensation Claim

- If there is no objection, your employer (or his insurer) is required to pay the compensation amount within 21 days.
- If there are objections, MOM will facilitate their resolution.
