

ANNEX B

FACTSHEET ON THE NATIONAL CET CAMPUSES

The two CET Campuses will be located strategically in Paya Lebar Central and Jurong Lake District. They will serve as:

- A **Gateway** for all workers, from rank-and-file to professionals, managers, executives and technicians (PMETs), to discover career opportunities, and access relevant training that will help them stay employable and progress in their careers.
- A **Hub** of high quality CET providers, clustered under one roof, leveraging on each other and linked up with the wider network of providers around the island
- An **Employment Exchange** for employers to meet their manpower needs and for workers to seek out good job opportunities.
- A **One-Stop Centre** integrating career coaching, training, assessment and career services.

Combined, the campuses are expected to train 50,000 people annually.

When completed in 2013, the campuses will not only hold quality CET providers that would deliver training on-site, but also host best-in-class CET programmes such as master-classes, professional development programmes and workshops delivered by subject experts, local and international.

The campuses will come with modern facilities specially-designed to support adult learning. A common resource centre, training rooms and F&B outlets are among some of the planned facilities in the CET Campus East. Others include:

<p>A Tiered Lecture Theatre with capacity for 300 adult learners (CET Campus East Only)</p>	<p>Equipped with the latest information technology and audio-visual learning capabilities, the lecture theatre supports real-time distance lectures and webinars (web-seminars) with international speakers.</p> <p>It will also have recording capabilities for the real-time broadcasting as well as replication and web sharing of lessons (i.e. lectures) and learning materials.</p>
<p>4 Flexible Event Halls</p>	<p>Each can accommodate between 100 – 150 adult learners, depending on hall size.</p> <p>When combined, the four halls with high ceilings can also accommodate events such as career and training fairs, course and career previews, industry talks as well as seminars for up to 500 adult learners.</p>
<p>80 training rooms, estimated to accommodate up to 2,400 adult learners in any given day</p>	<p>Out of 80 rooms, 10 will be common training/meeting rooms equipped with the latest Information and Communication Technology (ICT) and audio-visual systems capable of supporting on-line, mobile and collaborative learning.</p>
<p>Learning pods in Resource Centre</p>	<p>Trainers can use the learning pods which are enclosed areas outfitted with computers/hot desking facilities to prepare for lessons and provide post-training guidance.</p>
<p>Learning corners at every floor</p>	<p>Adult learners can engage in group and informal learning and even catch up on work at the learning pods individually and or in groups at the learning corners</p>
<p>Cafes on ground floor</p>	<p>Adult learners, employers or even CET providers</p>

	can mingle, interact and engage each other informally.

CET CAMPUS EAST AT PAYA LEBAR CENTRAL

The CET Campus East will be situated next to the existing Singapore Post Centre and bounded by Paya Lebar Road, Eunos Avenue 5 and Eunos Road 8. It will be an 8-storey campus with a gross floor area of approximately 30,000m². It will be located close to Paya Lebar MRT interchange station and is also only a 10 minutes drive away from the Central Business District.

When completed, CET Campus East would be able to accommodate at least 10 CET providers, which will deliver training in areas such as:

- Sectoral Skills: Tourism, Hospitality, Food and Beverage, Retail, Security and Aerospace.
- Generic Skills: Employability Skills, Service Excellence, Generic Manufacturing, Productivity and Adult Educators.

Designed by SAA Architects Pte Ltd, the CET Campus East's defining features are as follows:

1. **Gateway** – Architecturally designed to portray the concept of the campus being a gateway to the national CET system.

View from Paya Lebar Road

2. **Transparency of Activities** – From outside, there will be instant visual connection with the activities within the campus.

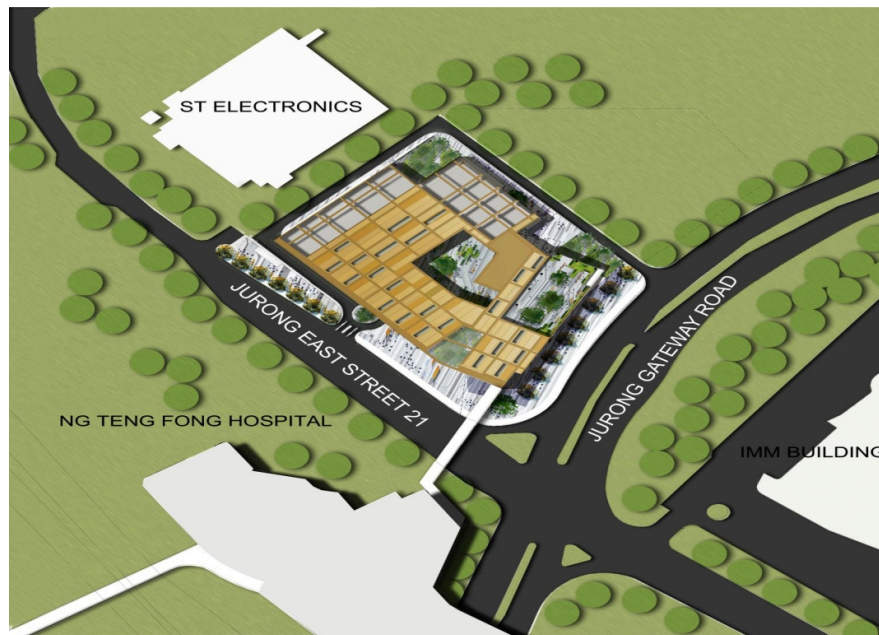

View from Certis Cisco Building, along Eunos Avenue 5

3. **Open-concept & Vibrant** – Once inside, one will be greeted by an array of learning activities and events taking place. Airy open decks and learning corners on each floor allows for self learning and group interactions.

CET CAMPUS WEST AT JURONG LAKE DISTRICT

Situated next to the upcoming Ng Teng Fong Hospital and near the existing IMM shopping mall, the CET Campus West will be connected to the Jurong East MRT interchange via a sheltered elevated pedestrian network and is easily accessible from the AYE and PIE. There will be easy access to transport facilities and a variety of shopping and F&B options arising from future developments.

When completed, the 7-storey campus will come with a gross floor area of approximately 30,000m² and would be able to house at least 10 CET providers at one time, delivering training in areas such as:

- Sectoral Skills: Digital Animation, Media, Early Childhood Care & Education, Healthcare, Human Resource, Landscape and Workplace Safety and Health.
- Generic Skills: Employability Skills, Service Excellence, Generic Manufacturing, Productivity and Adult Educators.

Designed by RSP Architects Planners & Engineers Pte Ltd, the CET Campus West's defining features are as follows:

1. **Distinctive & Forward Looking** – With flexible spaces to cater for evolving CET needs.

View from Junction of Jurong East Street 21 and Jurong Gateway Road

2. **Customer-centric** – Easy access to training providers, career services due to zoning of activities.

View of Open Courtyard from Campus 3^d storey

3. **Seamless** and **Borderless** - Very accessible and well connected to surrounding developments
