All Crane Owners, Factory Occupiers & Interested Parties

LIST OF DE-REGISTERED MOBILE CRANES FOUND TO BE ILLEGALLY RETROFITTED

Since the implementation of the policy to limit the service life of mobile cranes, the Occupational Safety and Health Division (OSHD) has conducted surveillance audits on mobile cranes.

2 We have found several mobile cranes that were illegally retrofitted by replacing the original aged crane with a newer crane (some even with a different brand/make) onto the original vehicle chassis, so as to get around the policy. These retrofitted mobile cranes had been de-registered and will not be allowed to re-register for use. The list of de-registered mobile cranes is in Appendix 1.

3. All crane owners / factory occupiers are reminded that it is an offence to operate/use any of these de-registered mobile cranes. Should you notice any retrofitted mobile cranes being used, you may notify the Division via the following email: MOM_Specialists_Email@mom.gov.sg
