**Notes**

- i. A short-term approval of up to 4 months will be granted to implement FWS for application due to COVID-19. Longer approval period can be granted on a case by case basis.
- ii. Each cycle consists of the period where 'un-worked' hours are accrued and used to offset with overtime hours/ hours worked on rest days/ hours worked on public holidays. For example, if the period to accrue and offset overtime hours is 8 weeks, and the period approved is 4 months or 16 weeks, then there are 2 cycles.
- iii. In months where Government wage support measures are given, firms should not 'bank-in' unused working hours in full. For example, if employees are not working for the whole month of Apr 20 and the unused working hours are 170 hours, then companies should not 'bank-in' the full 170 hours. As a guideline, the hours 'banked in' should not exceed 50% of the contractual hours that employees are not working for the month of Apr 20. In the example of the 170 hours, the hours to 'bank-in' should not be more than 85 hours.
- iv. Proposed rate to offset overtime hours refers to the rate when accrued hours are converted to overtime hours. Offset of overtime hours can be by accrued wages. For details, please refer to the examples on FWS.
- v. Once the accumulated work hours are fully drawn down to offset overtime hours, the normal overtime pay at 1.5x the basic hourly rate of pay would apply.

2. Please provide the details of at least 50% or 10 (whichever is lesser) employees that have given consent to the terms and conditions of your firm's FWS plan as stated in point 1 above^.
