EA Alert: Reminder to monitor situation in labour-sending countries

Dear Key Appointment Holders and Employment Agency Personnel,

1. As reported in the news, Myanmar has been in a state of emergency and an increasing number of townships are still under Martial Law. There have also been reports of travel restrictions in Myanmar.
2. Employment agencies (EAs) are advised to keep abreast of the domestic situations in labour sending countries, inform employers of any potential travel difficulties and render assistance to such employers if requested.
3. In general, EAs may wish to recruit workers from a wider mix of approved countries for business resilience and continuity.

Thank you.

Ministry of Manpower
