

FACT SHEET ON THE TECH DEPOT

The Tech Depot is a first-stop, centralised platform under the SME Portal aimed at improving SMEs' access to technology and digital solutions.

Launched in April 2017, it lists readily adoptable technology solutions that are developed and/or pre-qualified by the Agency for Science, Technology and Research (A*STAR), Info-communications Media Development Authority of Singapore (IMDA) and SPRING Singapore.

These solutions can be easily deployed by local enterprises across various industries to improve their business in areas such as:

<ul style="list-style-type: none">• Customer Management• Data Analytics• Finance Management• Human Resource (HR) Management• Inventory Management	<ul style="list-style-type: none">• Machine Effectiveness• Marketing and Content Management• Project Management• Quality Assurance• Workflow Tracking and Management
---	--

Close to 40 solutions have been made available on the Tech Depot to date. By innovating and tapping on technology, SMEs can enhance their productivity and transform their businesses.

About the SME Portal

The SME Portal (previously known as the “EnterpriseOne Portal” is the first stop for Singapore enterprises and aspiring entrepreneurs looking for information, tools and services that can help them build sustainable and competitive businesses. The Portal has supported the business community since 2006, and has been enhanced over the years to meet the changing needs of local businesses.

Through collaborations between SPRING Singapore, government agencies and over 30 industry partners, the Portal offers useful government and commercial information and services for enterprises at various business stages. It also serves as a point of access to key government e-services, such as GeBiz Alerts¹ and the Smart Advisor tool², as well as other commercial resources.

¹ Enterprises can sign up for GeBiz Alerts to be automatically updated on government contracts and tenders that are relevant to their business.

² The Smart Advisor tool helps enterprises filter and identify government schemes from various agencies that are relevant to their business profile and needs.
