

INFOCUS

New Work Permit Card for FDWs

Dear Employer,

From 24 August 2020, MOM will be issuing new version Work Permit cards for FDWs who are new to Singapore or have changed employers. The cards will no longer carry the employer's name or address. This information will only be displayed when the QR code on the card is scanned using the SGWorkPass app. You will no longer need to replace your FDW's Work Permit card if you change your residential address.

Who will receive the new version Work Permit cards?

- First-time FDWs starting to work in Singapore.
- FDWs who transfer to a new employer.
- FDWs who have reported their Work Permit as missing. Employers will need to replace the card for a fee.

Existing FDWs who are in employment before 24 August 2020 will not receive the new Work Permit card. However, you may opt to replace your FDW's Work Permit card at a fee. Click [here](#) for more information on card replacements.

Here is a preview of the new version Work Permit Card and SGWorkpass mobile app
