

ANSWERS

Caring for Young Children

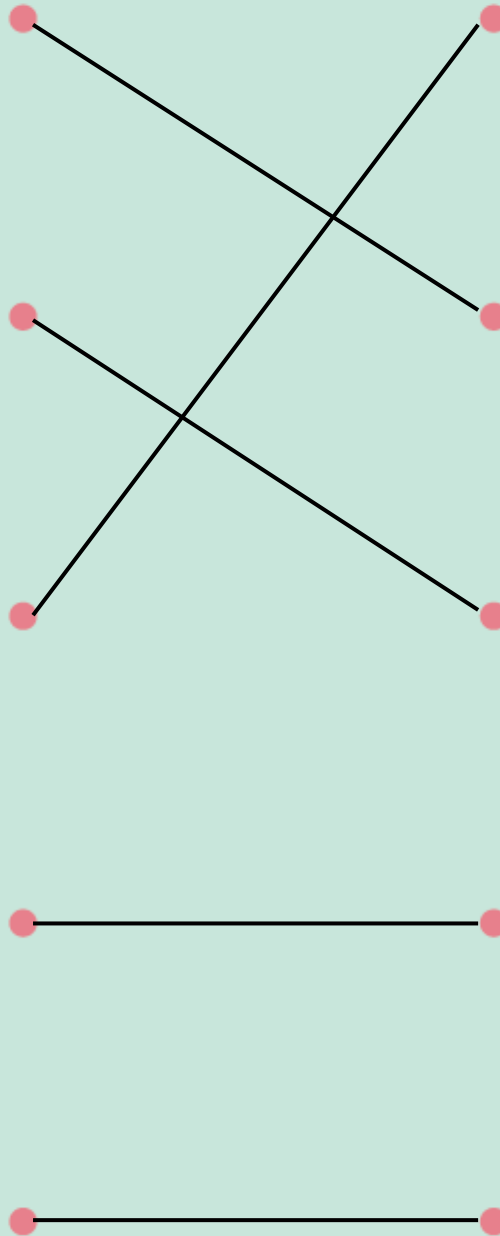

Test the temperature of the food before feeding

To prevent choking

Keep it out of reach to prevent any chance of poisoning

When crossing the road

Do not leave the windows or windows grilles open

- Always test the temperature of the food, milk and water before feeding it to the children.
- Cut the food into small pieces to prevent choking.
- Keep medicine out of young children's reach so that they would not consume it by accident.
- Always hold the child's hand firmly when crossing the road or when you are standing at the side of the road.
- Place furniture away from windows and lock the window grilles at all times to prevent children from getting near the windows and falling out.
